How to Access Subscribed Resources Remotely

Step 5: Accept the conditions and click at (a) 'ask me again at next login'

The screenshot shows a consent form for accessing IEEE Xplore Digital Library. It includes the logos for Thapar Institute and IEEE Xplore. The form text states: "You are about to access the service: IEEE XploreDigital Library of The Institute of Electrical And Electronics Engineers, Incorporated". It provides a description: "Description as provided by this service: IEEE XploreDigital Library is the testing team of IEEE". A table titled "Information to be Provided to Service" contains the following data:

Information to be Provided to Service	
eduPersonEntitlement	urn:mace:dir:entitlement:common-lib-terms http://www.thapar.edu/
eduPersonScopedAffiliation	staff@thapar.edu
eduPersonTargetedID.old	OTf14vJ5ljzccW2yxplnzKVgXxU=@thapar.edu

Below the table, it asks: "The information above would be shared with the service if you proceed. Do you agree to release this information to the service every time you access it?". There are three radio button options for consent duration:

- Ask me again at next login
 - I agree to send my information this time.
- Ask me again if information to be provided to this service changes
 - I agree that the same information will be sent automatically to this service in the future.
- Do not ask me again
 - I agree that **all** of my information will be released to **any** service.

A note states: "This setting can be revoked at any time with the checkbox on the login page." At the bottom, there are "Reject" and "Accept" buttons.

Step 6: You will be authenticated and re-directed to the publisher's website. You may see the Name of the "Thapar Institute of Engineering & Technology" appearing on publisher's site.

Step 7: In case if any publisher resource is not accessible through remote access login, do write us through e-ticket (<https://eticket.thapar.edu>) and select remote access assistance.

Use of the Remote Access Credentials

About Shibboleth Remote Access (Remote Access Platform)

Shibboleth is among the world's most widely deployed federated identity solutions, connecting users to applications both within and between organizations. Shibboleth is an open-source project that provides Single Sign-On capabilities and allows sites to make informed authorization decisions for individual access of protected online resources in a privacy-preserving manner. It is facilitated by INFLIBNET Center, Ahmedabad through its project PARICHAY.
